

“IT’S SORTED”

As part of the “Its Sorted” project last week Robyn from The Ugly Duck Out visited the school and helped the grade six students put together some new bins. These bins will help us sort our school waste into organics, reusable paper, recyclables and landfill. We are now trying to work out the best places to put them around the school. We have also started using the organic food scraps to feed our worms. Thank you to Robyn from The Ugly Duck Out, Glamorgan Spring Bay Council and the team at Keep Australia Beautiful for giving Swansea Primary School the chance to be part of the “It’s Sorted” project.
