that community members undertake through the Tidy Towns, Sustainable Cities and Clean Beaches awards. In recent times, education has also become a focal point of the organisation via its Sustainable Schools awards. To assist in promoting its message of enhancing the environment in which we live, Ken has been a strong advocate of practical litter and recycling strategies both at a local and national level.

The Board expressed its deep appreciation of Ken's leadership and hard work. Taking over as Chairman will be Mr. Rob Simmons who has been a Board member since 2010.
